IDAHO STATE HEALTH INNOVATION PLAN

HOW DID WE GET HERE?

- Idaho has been engaged in efforts to redesign our healthcare system for a number of years:
 - 2007 – Governor Otter Convened a Healthcare Summit
 - 2008 – Governor Otter Tasked a Select Committee on Health Care
 - 2008 – Idaho Health Data Exchange Established
 - 2010 – Governor Otter Established the Health Care Council
 - 2010 – Idaho Multi-Payer Medical Home Collaborative Established
 - 2012 – Public/Private Team Traveled to North Carolina to Study the NC Community Care Model

IDAHO HEALTHCARE PRIORITIES

2007-2014

- Cover Idaho's Children
- Expand Insurance Access and Affordability for Adults
- Expand Residency Opportunities
- Address the Health Professions Workforce Shortage
- Develop Patient Centered Medical Homes
- Continue to Improve Idaho's Behavioral Health System
- Encourage Prevention and Personal Responsibility for Health
- Address Undergraduate Medical Education
- Expand the Use of Electronic Medical Record Technology Statewide
- Support the State Healthcare Innovation Plan (SHIP)

WHAT IS THE SHIP?

The State Healthcare Innovation Plan (SHIP) is a statewide plan to redesign our healthcare delivery system, evolving from a volume-driven, fee for service system to a outcome-based system that achieves the triple aim of improved health, improved healthcare and lower costs for all Idahoans.

IDAHO SHIP MODEL ELEMENTS

- Strong Primary Care System
- Patient Centered Medical Homes (PCMH) – Foundational
- Medical Neighborhood
- Regional Cooperatives (RC) Support Local Primary Care Providers and Medical Neighborhood
- Statewide Idaho Healthcare Coalition (IHC)

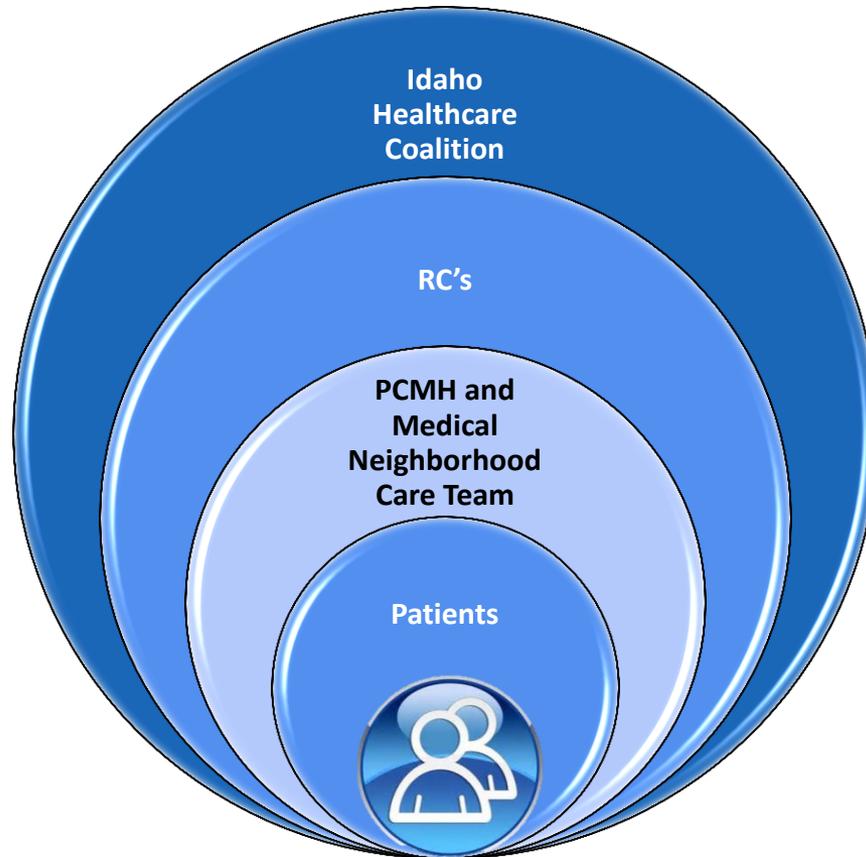

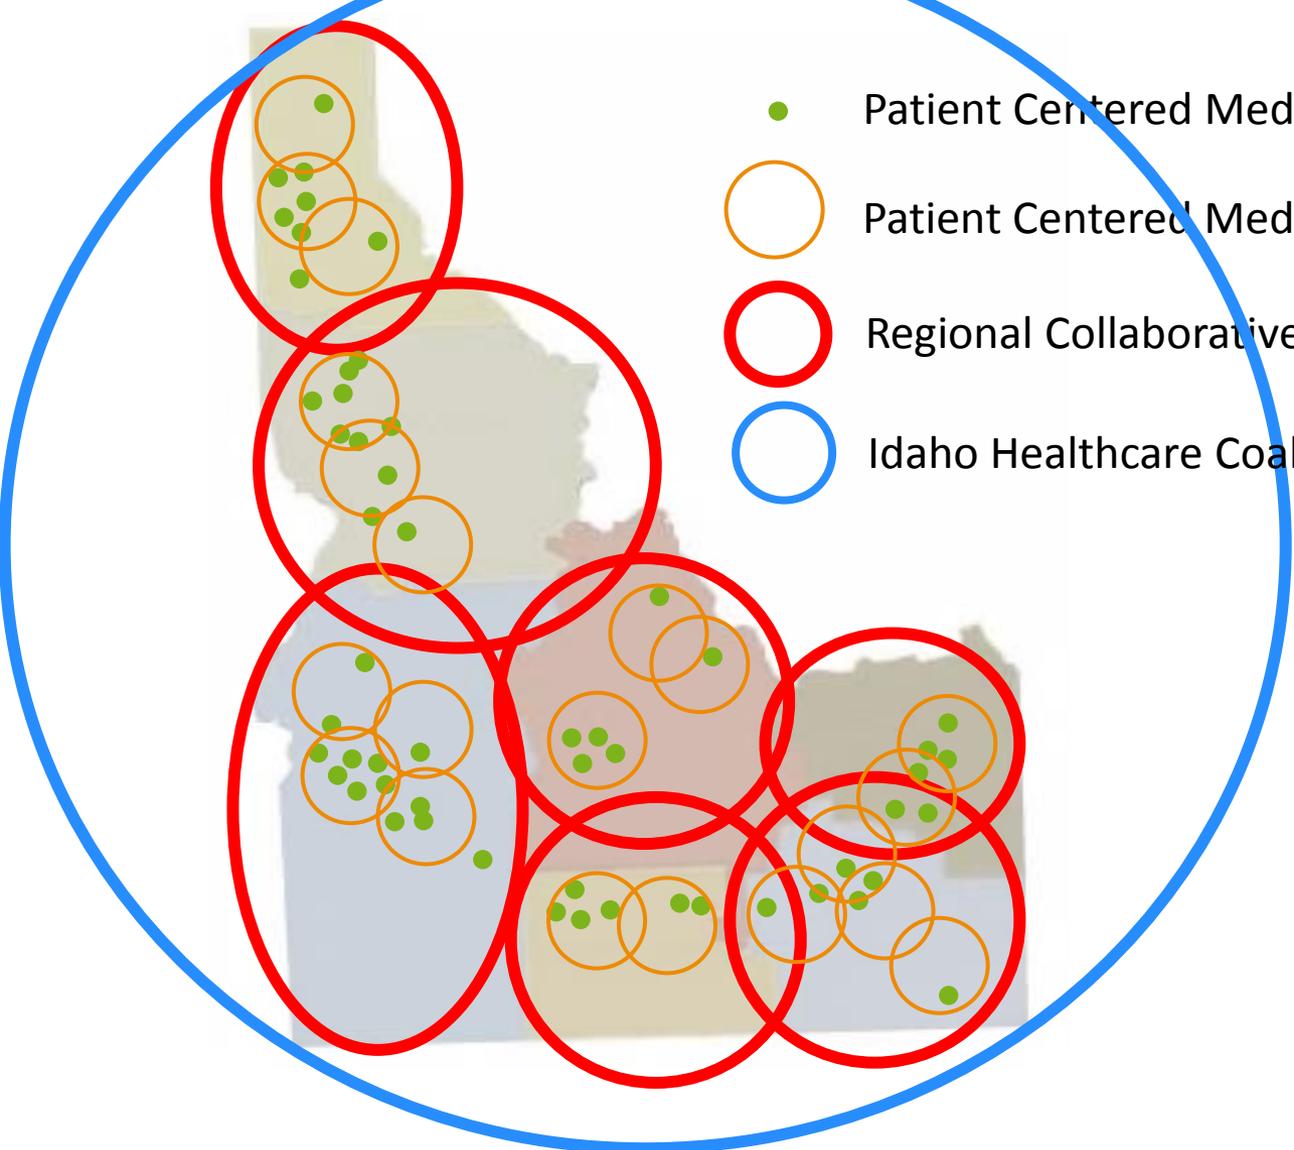

IDAHO SHIP MODEL ELEMENTS

- Health Information is Linked Electronically by EHR and HIT
- Data Analytics
- Payment Systems are Aligned Across Major Payers
- Patient Engagement/Accountability

SHIP MODEL DESIGN OVERVIEW

- Patient Centered Medical Home (PCMH)
- Patient Centered Medical Home Neighborhood
- Regional Collaborative
- Idaho Healthcare Coalition (IHC) / SHIP

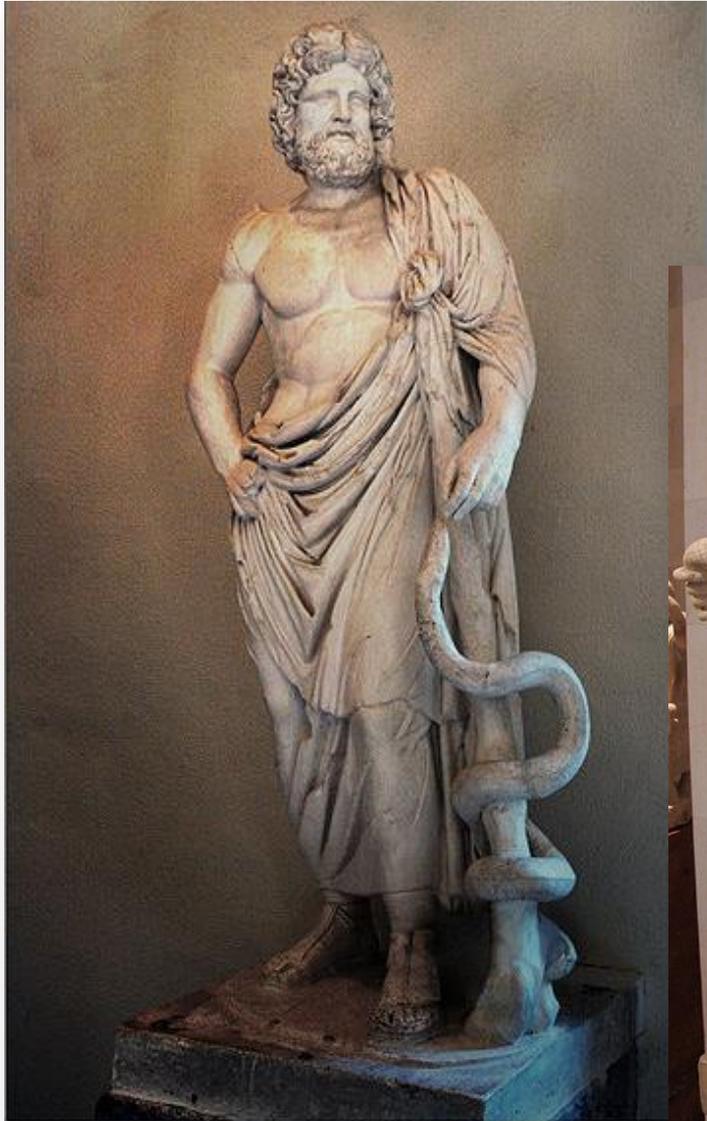

QUALITY IMPROVEMENT AND POPULATION HEALTH

- Core Quality Measures Identified for All PCMHs
- All Participating PCMHs will Report on Quality Measure for All Patient in Their Practice
- In Year 1, Three Selected Quality Measures will be Tracked Statewide to Establish a Baseline
 - Tobacco Use and Cessation Activities
 - Comprehensive Diabetes Care
 - Weight Assessment for Children and Adolescents

POPULATION HEALTH METRICS

- Tobacco Use Assessment and Intervention
- Weight Assessment and Counseling for Children and Adolescents
- Comprehensive Diabetes Care
- Screening for Clinical Depression
- Adherence to Antipsychotics for Schizophrenia
- Non-Malignant Opioid Use
- Acute Care Hospitalization
- Readmission Rates within 30 Days
- Emergency Care without Hospitalization
- Elective Delivery
- Low Birth Weight Rate
- Asthma Emergency Department Visits
- Childhood Immunization Status
- Adult Body Mass Index Assessment

ASCLEPIUS AND HYGIEIA

IDAHO HEALTHCARE COALITION (SHIP) SUMMARY

- Vehicle and Model for Healthcare Transformation for Idaho
- Built on Foundation of Primary Care and the Patient Centered Medical Home (PMCH)
- Integrates and Coordinates the PCMH with Secondary Providers, Hospitals, and Other Members of Healthcare Team
- Connects Public Health to Population Health Quality Metrics
