

## **Fee for Transfer to Septic System Permit**

We would like to create a fee to help cover the costs of staff's time supporting the Transfer of Septic Permits. Barry Burnell, with the State Department of Environmental Quality (DEQ) has declared that septic permits are transferable, "Permits are transferable to a new property owner provided that the conditions of the application and permit are unchanged."

The BOH approved the fee for permit renewals as \$50.00.

We would like to request the Septic Permit Transfer Fee to be consistent with the permit renewal fee.

\*The fee would go into effect immediately following the BOH meeting.
