Agenda item: Blue Cross Foundation Grant **Presenter:** Teriann Parker

Discussion:

A discussion of the Roadshow and assignments made at the Friday, February 12, 2016 meeting were documented. Prospective months were assigned to each of the six base areas along with committee members. Tentative regional presenters have been selected for the six TED Talk topics but committee members will communicate with the base area local contacts to identify other possible presenters. Committee members discussed thumb drives and decided that the information should also be included on the board's website. Distribution of advertising material will be left up to those committee members assigned to the six base areas. EIPH will be responsible for acquiring the supplies listed as line items and support staff will draft a disclaimer and funding acknowledgement based on the requirements of the contract with the Blue Cross Foundation.

Conclusions:

The committee will plan to meet every Friday at noon at Eagle Rock Counseling to continue moving forward with the planning of the Roadshow Trainings.

Committee members need to be aware of the line items on the budget and plan to utilize the money as allotted in the grant.
